CURRICULUM VITAE

IDENTIFYING INFORMATION

Name: **Danielle Carr, Ph.D.**
Licensed Psychologist #31103
Email: DrDanielleCarr@drlizross.com
Phone: 832-278-1849

EDUCATION

Postdoctoral Fellowship
August 1998 Emory University School of Medicine Atlanta, GA

Ph.D. in Clinical Psychology
The University of Georgia Athens, GA
June 1997

Predoctoral Internship
September 1995 Brown University School of Medicine Providence, RI

B. A. in Psychology
August 1991 Magna Cum Laude
Texas A&M University College Station, TX

EMPLOYMENT

2022-Present Independent Contractor; Department of Behavioral Science, The University of Texas M. D. Anderson Cancer Center

Provides clinical training and supervision to counselors on a grant funded study investigating a depression and smoking cessation intervention among depressed pregnant smokers. Specifically supervises delivery of the smoking cessation and health and wellness control interventions.

2005-2013 Behavioral Research Psychologist; 2013-2014 Behavioral Psychologist; 2016-2017 Behavioral Psychologist; Department of Behavioral Science, The University of Texas M. D. Anderson Cancer Center

Assisted in the development of clinical protocols in the Tobacco Treatment Program, a comprehensive tobacco cessation treatment program. Provided clinical services to both patients, patient family members and employees enrolled in the TTP to include comprehensive clinical assessments and behavioral therapy. Incorporated motivational interviewing-and acceptance and commitment therapy -based interventions. Actively contributed to the ongoing evolution of policies and procedures than occurred in the TTP. Collaborated frequently with other members of the multidisciplinary team, both within the TTP and across institutional clinics, in order to provide patients with optimal care. Provided clinical supervision to other TTP counseling clinicians, including pre- and post-doctoral fellows and counseling associates. Coordinated as needed to ensure the success of TTP research efforts.

2001-2005, Research Manager; Department of Behavioral Science, The University of Texas M. D.

Anderson Cancer Center

Oversaw a number of psychosocial research protocols examining stress and quality of life among individuals with various types of cancer. Included training and supervision of 5-7 research staff, each coordinating separate projects. Involvement in the design and conduct of several psychosocial intervention studies, including cognitive behavioral stress management with prostate cancer and breast cancer patients, as well as emotion-based writing with individuals with renal cell carcinoma. Based on the results of a previously conducted pilot study, assisted with the writing of a subsequently funded grant application examining a palmtop computer-assisted stress management intervention for women undergoing chemotherapy for breast cancer. Developed and delivered cognitive behavioral stress management interventions for multiple studies, which included collaboration with computer programmers to develop and implement a palmtop computer program as an adjunct for the above- mentioned breast cancer study. Analyzed data from various psychosocial studies, presented findings at professional conferences, and prepared manuscripts for publication in peer-reviewed journals.
Supervisor: Lorenzo Cohen, Ph.D.

1998-2001, Research Associate; Department of Behavioral Science, The University of Texas M. D. Anderson Cancer Center

Co-Investigator and Project director for a National Cancer Institute/National Institute of Mental Health-funded study examining pre-surgical stress management among men with prostate cancer. Responsibilities included preparing curriculum materials and manuals, involvement in instrument selection, collaborating with medical staff and physicians, developing recruitment procedures, delivering cognitive behavioral stress management interventions and administering clinical interviews, training research staff and a postdoctoral fellow, and overseeing the running of the study. Involvement in pilot-testing a palmtop computer-assisted cognitive behavioral stress management intervention with women undergoing chemotherapy for breast cancer. Supervisor: Lorenzo Cohen, Ph.D.

CLINICAL EXPERIENCE

Postdoctoral Fellowship

1997-1998, Postdoctoral Fellow in Pediatric Psychology, Emory University School of Medicine, Department of Psychiatry, Atlanta, Georgia

Clinical work with children experiencing sickle cell disease and their families and child survivors of cancer, with an emphasis on comprehensive assessment (socio-emotional and cognitive) and school liaison and consultation. Provided consultation to medical staff and conducted ongoing therapy for a wide range of behavioral and emotional difficulties among children with sickle cell disease and child survivors of cancer and their families. Consultation and liaison services within a child and adolescent medical hospital. Consultation and brief psychotherapy within a medical clinic for at-risk adolescents. Involvement in an ongoing research project examining the psychosocial functioning of children with sickle cell disease and their families. Particular activities included coordinating data collection, conceptualizing specific research questions, and preparing manuscripts for publication. Supervisors: Ronald T. Brown, Ph.D.; Pamela Bachanas, Ph.D. Clinical Internship

Clinical Internship

1994-1995, Clinical Psychology Predoctoral Intern, Brown University School of Medicine, Providence, Rhode Island

Rotation I: Rhode Island Hospital. Behavioral Medicine rotation involving diagnostic evaluation and cognitive behavioral treatment of adult anxiety and sleep disorders in an outpatient hospital setting. Particular diagnoses included Panic Disorder With and Without Agoraphobia, Social Phobia, and Generalized Anxiety Disorder, as well as various sleep disorders and comorbid depressive disorders. Consultation/Liaison services within a women and infants hospital and a pediatric sleep clinic. Supervisors: Donn A. Posner, Ph.D.; Anthony Spirito, Ph.D.

Rotation II: Bradley Hospital therapeutic day preschool program specializing in early childhood disorders. Assessment and treatment of a variety of early childhood behavioral and emotional difficulties within a multidisciplinary team model. Areas of experience included developmental disabilities, Attention Deficit/Hyperactivity Disorder, anxiety problems and conduct problems. Treatment included individual, family and group modalities. Supervisors: Susan Dickstein, Ph.D.; Karin Dodge-Mcgee, Ph.D.

Rotation Ill: Bradley Hospital therapeutic day school program for children and adolescents. Assessment and treatment of a range of child and adolescent behavioral and emotional difficulties, including, but not limited to, Anxiety Disorders, Depressive Disorders, Conduct Disorder, Attention Deficit/Hyperactivity Disorder and Oppositional Defiant Disorder. Treatment involved individual, family and group modalities. Emphasis was placed on providing services utilizing a multidisciplinary team approach. Supervisors: Greta L. Francis, Ph.D.; Francine D'Elia, Ph.D.; Anne Walters, Ph.D.

Clinical Practica

1996-1997, Graduate Practicum Supervisor, Clinical Practicum Team, Psychology Clinic, University of Georgia, Athens, Georgia

Clinical supervision of graduate students prior to their doctoral internship. Clinical work of supervisees involved assessment and treatment of children and adolescents experiencing a broad array of behavioral and emotional difficulties. Didactic presentations on various aspects of clinical assessment and intervention with children and families. Supervisor: Ronald Blount, Ph.D.

1993-1994 Therapist, Clinical Practicum Team, Psychology Clinic, University of Georgia, Athens, GA

Assessment and treatment of children and adolescents. Presenting problems included noncompliance, difficulties adjusting to parental divorce, Generalized Anxiety Disorder, conduct problems, and aggression. Supervisor: Lisa Armistead, Ph.D.

4/92-6/93 Volunteer Therapist, Project Safe and University of Georgia

Co-led child management group meetings among residents of a shelter for battered women and their children. Supervisor: Lisa Armistead, Ph.D.

9/92-8/93 Therapist, Clinical Practicum Team, Psychology Clinic, University of Georgia

Assessment and treatment of individual adult clients presenting with the following difficulties: Generalized Anxiety Disorder, Panic Disorder Without Agoraphobia, Major Depressive Disorder, Dependent and Histrionic Personality Disorders, and difficulties related to sexual orientation issues. Supervisor: Karen S. Calhoun, Ph.D.

9/93-6/94 Consultant, Oglethorpe County School System, Oglethorpe County, GA

Cognitive, emotional and behavioral evaluation of children exhibiting educational and behavioral/emotional problems at school. Supervisors: Lell Forehand, Ed.S; Rex L. Forehand, Ph.D.

9/91-6/92 Therapist, Clinical Practicum Team, Psychology Clinic, University of Georgia

Assessment and treatment of children and their families. Presenting problems included Attention Deficit Hyperactivity Disorder, Oppositional Defiant Disorder, conduct problems, parental divorce issues, and self-esteem issues.
Supervisor: Karen Smith, Ph.D.

RESEARCH EXPERIENCE

2001-2005, Research Manager; Department of Behavioral Science, The University of Texas M. D. Anderson Cancer Center

(see above Employment section)

1998-2001, Research Associate; Department of Behavioral Science, The University of Texas M. D. Anderson Cancer Center

(see above Employment section)

1992-1994; 1995-1997; Research Assistant and Clinical Interviewer, University of Georgia

Member of a research team involved in three large scale research projects: one that examined the long- term influence of parental divorce and conflict on psychosocial adjustment of adolescents; a second that involved family and child functioning in families where fathers had hemophelia, some of whom were HIV infected; and a third examining psychosocial functioning among African American HIV infected women and their children. Responsibilities included co11aboration regarding project conceptualization and grant-writing, instrument selection and piloting, traveling to multiple sites to interview and assess parents and children, analyzing data, and preparing conference presentations and manuscripts for publication. Supervisor: Rex. L. Forehand, Ph.D.

Doctoral Dissertation: 'The Role of Optimism in Psychological and Physical Functioning among HIV infected and non-infected African American Women: Curvilinear Effects and the Mediational Role of Coping'. Major Professor: Rex. L. Forehand, Ph.D.

Master's Thesis: 'Concurrent and Long-term Correlates of Childhood Anxiety'. Committee Chairperson: Cynthia Frame, Ph.D.

1991-1992; Institute of Mental Health Clinical Psychology Fellow, University of Georgia

Involvement in an ongoing nine-year longitudinal study aimed at determining trends in psychopathology across childhood development. Responsibilities included data collection within a local public school system, data entry and management, and supervision of an undergraduate research assistant. Supervisor, Cynthia Frame, Ph.D.

Grants and Contracts

1. Co-Investigator, Pre-surgical Stress Reduction, Mental Health, and Cancer, National Institute of Mental Health/National Cancer Institute, NIH, 1 ROI MH59432, L. Cohen, 08/01198-07/31/04 (no cost extension), $1,785,739 ($305,927/year)

2. Co-Investigator, Computer-aided Stress Reduction, Mental Health, and Cancer, National Institute of Mental Health/National Cancer Institute, 1R21 MH/CA62031, 07/01l00-06/30/05 (no cost extension), $453,000
